

Number Sense and Fluency

with district Math Consultant, Bill Jackson

Wednesday, January 27, 2021

Parents, please join sessions as follows-

Math Fluency in Kindergarten - Grade 2:

6:00 - 7:00pm

[Click here to join the session](#)

What does it mean to be fluent in math? Please join us for a hands-on experience with our math consultant, Bill Jackson to learn about math fluency in the primary grades and ways to support your children in developing math fluency with addition and subtraction facts in Kindergarten - Grade 2.

Math Fluency in Grades 3-5:

7:15 - 8:15pm

[Click here to join the session](#)

Our approach to teaching multiplication and division goes beyond memorization of basic facts. What does it mean to be fluent in math? Please join us for a hands-on experience with our math consultant, Bill Jackson to learn ways to support your children in developing math fluency with multiplication facts and number sense in grades 3-5.
